## What if 118° becomes the New Normal?

Even though temperatures are starting to cool, think ahead! Could you survive another **brutal** summer?

Consider keeping your home cooler and energy expenses down by:

- Replacing your air conditioner/heat pump
- Adding more insulation in the attic
- Upgrading your windows
- Installing a new solar water heater
- Or installing solar panels

Do it now while contractors are less busy! No one likes getting into the attic when it is 118.

Look to MariSol for easy, affordable financing. Our Smart E - Energy loans start as low as 6.49% APR\* for energy efficient products. Different rates and terms are available. Visit our website to learn more, or call us for more information.

\*APR = Annual Percentage Rate. Rates are subject to change. All loans are subject to approval. Loan proceeds are payable to vendors only, no cash-out. Contract or proposal required for energy improvements.

## How Old is your Clunker?

**If your clunker is down to the bare bones, MariSol can get you a great deal on wheels. Despite all the talk of inflation, you'll find our rates are still incredibly low.**

And, if you're looking for an affordable Extended Warranty or GAP protection plan, we have that too. Before you shop, visit or call us today!

You can save even more by setting up your loan payments with payroll deduction. Ask the lending department for details.

What makes our rates so great? Besides being incredibly low, you can get the same rate whether you buy new or used. Not many dealers or financial institutions offer that.

## A Big Shout Out to our Members

MariSol would like to thank our members for donating to the Human Services Campus Thirst Aid campaign, a project we loved sponsoring. We received 25 cases of water and over \$1,300 in donations, all matched by MariSol.

Thirst Aid helped hydrate those homeless and those in crisis in the downtown Phoenix area during this summer's heat wave.
